

DRAI Intake Form

Thank you for your interest and inquiring in the Deep Retrofit Accelerated Initiative project. This program is aimed at helping you and your organization manage energy in your buildings and will give you the information and tools to more effectively manage your buildings energy use today, tomorrow and in the long-term.

Detailed below is an onboarding form that will help kickstart the project by signing up all your buildings, and ensuring we have the right contacts and information to develop all the project deliverables. In the forms below, please provide necessary contact information, building information, and utility data as soon as possible for Four Winds & Associates to advance your application through the process. Please email all information to admin@fourwinds.ca or respond to whoever sent you this email.

Telephone	

Utility Data

For buildings to be qualified for this project, utility data must be provided to Four Winds. This includes electricity, natural gas, and water bills. We understand these bills may be in digital or physical formats, so please provide whatever you must to Four Winds. Please provide at least one full year of bills.

If you do not have utility bills available, please contact us, and we can provide a form for accessing utility bills from your energy provider, which we will then use directly.

Bottom of Form

Building List

In the table below, please provide as much information as possible. If you do not have the exact size or age of the building, please put an approximate guess.
